

PERMA/flo Pipe & Fittings

Piping for Abrasive Services

PERMA/flo
Tees

Impact Style
90° RWB

Delta Ducon PERMA/flo pipe & fittings are designed to withstand the wearing action of abrasive materials when transported either hydraulically or pneumatically.

PERMA/flo Pipe & Fittings are cast of proprietary iron alloys that produce hardness ranges up to 550 BHN (Brinell Hardness Number). PERMA/flo outperforms other industry options such as 140 BHN for 316 SS and 180 BHN for cast grey iron.

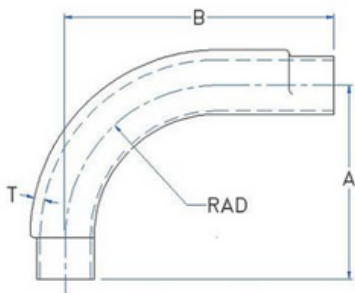

PERMA/flo Pipe & Fittings are joined together with the use of compression couplings. Couplings allow for minor thermal expansion and alignment, providing up to 4 degree deflection.
